EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claim

Claim 19, last line, "μ:m" has been deleted and replaced thereof with --μm-- (due to typographical error).

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or fairly suggest a catalyst, which requires "a porous support having a total pore volume, at least 20% of the total pore volume being contributed by pores having diameters of greater than about 20 angstroms" and in combination with the requirement of "at least 5% of the catalyst metal being disposed within pores that are at least about 10 μm away from the exterior surface of the support" as recited in claim 19.

There is no motivation to combine the teachings of the references together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
